WELCOME

Our ID fellowship has been in place since the early 1960s — decades before the official ACGME designation in 1987. This fully accredited program combines clinical and research training over two years, leading to ABIM certification in Infectious Diseases.

We're excited to customize your fellowship experience to reach your career goals!

Lauren Touleyrou, MD, MPH

Program Director

Hussein Tehaili, MD, MBA

Associate Program Director

"We're so glad you're here — welcome to Wayne State ID!"

WAYNE STATE
School of Medicine
